NOTE:

For Intra-EU trade, "country of destination" is used for dispatches and "expedition country" for introductions; For Extra-EU trade, "country of destination" is used for export and "country of origin" for import (unless the home country is an EU Member State, in which case the shipping country is taken into consideration).

Romania: Intra and Extra-EU wine exports, 2021

Country	Liters	Euro
Total, of which:	17,401,560	34,154,832
